# DIALING LOCAL CALLS

IN WINSLOW & JOSEPH CITY

For **EMERGENCY** and Telephone Service Calls See **PAGE 1**

How to use your dial telephone in making local **CALLS**

1. Know the correct number. If you are not sure of the number, look it up in the directory.

2. Dialing a local call

a. Remove the receiver and listen for dial tone—a steady humming sound.

b. Upon hearing the dial tone, dial each figure in the number.

c. When you hear a soft “burr-ring” sound after dialing a number, the telephone you dialed is ringing. Please give the person you are calling time to answer before you hang up. About ten rings (one minute) is usually enough.

d. If, after dialing, you hear a steady “buzz-buzz-buzz” it means that the line is busy. To stop the “busy signal” it is necessary to hang up.

e. If you are calling another party on your line you will always get the “BUSY SIGNAL”. TO COMPLETE SUCH A CALL “DIAL OPERATOR” and she will be glad to help you.

3. Suggestions that will help to prevent your calls going astray—wrong numbers or not getting the “ringing” or “busy” signal.

a. Turn the dial all the way to the finger stop.

b. Completely release the dial after each pull and allow it to return to its original position at its own speed.

c. In making a series of calls or if you make a mistake in dialing—hang up momentarily before dialing again. This releases the equipment and gives it time to place the “dial tone” on your line again.

## Information about long distance calls

**Here are some suggestions which can save you money and time**

### How to save money

**CALL STATION-TO-STATION** if you are willing to talk to anyone who answers. Charges begin when the called telephone is answered. Station-to-station rates are lower than person-to-person.

**TO MAKE STATION-TO-STATION CALLS TO CITIES YOU CAN DIAL DIRECT** Just follow the Direct Distance Dialing instructions on Pages 4, 5, & 6. It is easy to dial your out-of-town calls if you follow these simple instructions.

**TO MAKE STATION-TO-STATION CALLS TO CITIES YOU CANNOT DIAL DIRECT** (For Winslow and Joseph City subscribers) Dial Operator and tell her the place and telephone number. If you don't know the number, give the operator the name and address, but tell her you will talk with anyone. Then list the number in your “Blue Book” of telephone numbers.

**CALL PERSON-TO-PERSON** if it is necessary to talk to a particular person or to a particular extension telephone or department. Charges are higher than for station-to-station calls. They begin when the person or telephone you have asked for answers.

**PLACE YOUR CALL AFTER 6 P.M. OR BEFORE 4:30 A.M. ON WEEKDAYS OR ANY TIME SUNDAYS.** You make real savings on most calls during these reduced rate periods, especially on calls to more distant points.

**PLAN YOUR CALL.** It's a good idea, before making a long distance call to plan what you want to say. Then you won't talk longer than you intended or have to call back because you forgot something.

### A good idea

**CALL BY NUMBER** whenever you know it—it's Faster! When you place long distance calls by number, the operator can frequently complete your call twice as fast. If you don't know the number, the operator will give it to you in the course of handling the call—then you can jot it down for use next time. If you'd like a handy booklet for listing frequently-called numbers, “The Blue Book of Telephone Numbers” is free. For your copy, just ask at the Telephone Business Office.

### Have a telephone get-together

Have a family reunion or a business meeting by telephone. You can talk to a number of long distance points all at one time. Just dial Operator and then ask for the Conference Operator and tell her the numbers you want to contact. This service costs less than you'd think.

# DIRECT DISTANCE DIALING

From all telephones except coin telephones

## WHAT IS DIRECT DISTANCE DIALING?

A faster method of completing long distance calls, enables you to dial your own long distance calls direct to many telephones throughout the country. It can be used as easily and simply as dialing a local call.

## HOW TO USE DIRECT DISTANCE DIALING

### When To Use Direct Distance Dialing

Direct Distance Dialing can only be used to dial station-to-station long distance calls. Continue to dial Operator to place all other long distance calls such as:

Person-to-Person

Collect

Credit Card

Calls from Coin Telephones

Other calls requiring special handling

### Where You Can Dial

You are able to dial all telephones with 2 letters and 5 figures or with 7 figures in the cities and communities listed on the following pages. Additional communities are being added to this list from time to time, and may be obtained by dialing Operator.

### Obtain The Number

If you want a number in a city listed on the following pages, dial Operator and ask for the information operator in the city you are calling.

For Example: Chicago Information, please.

When you get the number, please jot it down and keep the number in front of you while you dial.

Your Blue Telephone Number Booklet for recording your long distance telephone numbers may be obtained by calling the Business Office.

# HOW TO DIAL A DIRECT DISTANCE CALL

From All Telephones (Except Coin Telephones)

## Dial The Direct Distance Dial Code "112"

First dial "112"

Next dial the three-digit Area Code listed after the desired city name in the list on the following pages. Calls to all Arizona communities will not require an Area Code.

Then continue to dial the telephone number (2 letters and 5 figures or all 7 figures) just as you do on a local call.

You can dial only those telephone numbers which have 2 letters and 5 figures, like RIchmond 8-1299, or 7 figures, like 748-1299.

It's important to remember this because some cities have numbers that you can dial and numbers you can't dial. For example, MUtual 6552 cannot be dialed because there are not 5 figures in the number.

## Here's How You Do It

For Example:

To call an Arizona number:

	DDD Code	Area Code	Telephone Number
Dial 112 (not required)		SU	3-0799
Dial 112 (not required)			783-0799

For Example:

To call Los Angeles  
RIchmond 8-1299

	DDD Code	Area Code	Telephone Number
Dial 112	112	213	RI 8-1299
Dial 112	112	213	748-1299

## Your Number, Please?

After you have dialed the distant number and before the telephone starts to ring, an operator will come in on the line and ask your number, saying "Your number please." When she does, give her the number of the telephone you are using.

## THINGS TO REMEMBER ON ALL DIRECT DISTANCE DIALING CALLS

1. First dial "112."
2. Followed immediately by the "Area Code," if required.  
(See following pages).
3. Then dial the telephone number. Be sure it has 2 letters and 5 figures or 7 figures.
4. Give the operator the number of the telephone you are using when she asks, "Your number, please?"

# IN CASE OF DIFFICULTY REPORT IT IMMEDIATELY TO YOUR OPERATOR

It is most important to dial correctly. However, if you reach a wrong number, ask the person you have reached for his telephone number and his city. Dial Operator immediately and give her this information so that you will not be charged for the call. If you receive a busy signal, hang up and try the call later. If you have any other difficulty, dial Operator. She will be glad to help you.

**REMEMBER — NO CHARGE WILL BE MADE WHEN:**

- You call "OPERATOR"
- For information about a telephone number
- The line is busy
- No one answers

## PLACES YOU CAN DIAL

HERE IS A PARTIAL LIST OF PLACES YOU CAN DIAL DIRECT BY TAKING THESE EASY STEPS.

### ARIZONA

FIRST DIAL 112 FOLLOWED IMMEDIATELY BY THE TELEPHONE NUMBER

Ajo	Holbrook	San Manuel
Ash Fork	Humboldt	Scottsdale

## Things you should know about telephone service

### Emergency calls from party lines

IF YOU NEED THE LINE to make an emergency call, break into the conversation, identify yourself, tell what the emergency is and ask the other parties to please hang up.

IF YOU ARE USING THE LINE when the other party breaks in to say he has an emergency call, please hang up immediately.

### Warning

It is unlawful for any person willfully to refuse to yield or surrender the use of a party line to another person for the purpose of permitting such other person to report a fire or summon police, medical or other aid in case of emergency. Likewise, it is unlawful for any person to ask for or request the use of a party line on pretext that an emergency exists knowing that no emergency in fact exists.

### Recording of conversations

If you hear a "beep" on the line about every 15 seconds during a telephone call, the person with whom you are talking is recording the conversation by means of an electrical recording machine. The "beep" signal is for your protection. Use of a recorder without this signal is contrary to the Company's tariffs and not permitted.

### Advertising business telephone numbers

Listing telephone numbers in advertising is a convenient and profitable way for a business firm to place its telephone number before the public. We encourage this, but at the same time it should be understood that the assignment of a telephone number does not imply any property right in that number. The needs of the service compel us to occasionally make number changes. If your number must be changed, we will advise you as far in advance as possible.

### Directory accuracy

Every effort is made to keep the directory as accurate as possible. The Company, however, assumes no liability for damages arising from errors and omissions from the directory except as provided for in its filed regulations and tariffs.

### Improper language

Profane or obscene language over the Company's lines is prohibited. Any violation of this rule may constitute cause for discontinuing service.

### Attachments to telephones

Someone is always selling some new gadget or gimmick to hang on the telephone, presumably to improve the service or make it handier. However, most of these devices actually interfere with your service and may put your telephone completely out of order.

The Telephone Company does not sanction any devices except those it furnishes. If your telephone equipment doesn't meet some special need, the Telephone Company can furnish approved special equipment at reasonable rates.

### Telegrams by telephone

You may telephone telegrams, cablegrams, or radiograms to the Western Union Telegraph Company—see the listing of that company in this directory—and have the charges appear on your telephone bill. You may also telephone your Western Union telegrams from coin telephones, paying as you would for a telephone call.

### Entertaining and educational programs are available for organized groups

Talks and Motion Pictures can be arranged FREE OF CHARGE for groups of people, such as schools, fraternal, church, business, trade and professional organizations; and civic and service clubs.

For full information or booking, call or visit your local Telephone Business Office.

## Local & Out-of-Town Numbers Frequently Called

## Modern homes have Extension Telephones

...where you need them...when you need them!

With the accent on convenience, modern homes have several phones...and in color. Extensions in the kitchen, bedroom and basement save time and steps—let you take or make your calls where you are, not where you wish you were.

And the cost is amazingly low.

## Choose from a variety of styles!

A recent addition to the telephone family is the compact, delicately styled Princess. Designed to keep pace with modern living it comes complete with built-in dial and night lights. Also the familiar distinctively designed desk or table top model and the attractive, space-saving wall model are available in a wide range of colors.

## Add a decorative note to your home!

In the rooms you select, color telephones give handsome testimony to your own standard of good taste. Carefully keyed to modern color preference by leading color consultants, telephones in color are designed to personalize your decorative scheme, to give you a conversation piece that's as interesting to talk about as on.

THE LOW COST OF COLOR TELEPHONES CAN BE PAID, IF YOU WISH, IN SMALL MONTHLY INSTALLMENTS

# COMPLETE TELEPHONE SERVICE

## Makes YOUR home more pleasant

Today over 100 items of equipment are available to make the telephone in *your* home the most efficient servant imaginable. In addition to those described here, there are many more—each designed to save you time and steps, each tailor-made for your special needs. If you'd like to learn how *you* can enjoy complete telephone service, just call your telephone business office.

### The New Princess Phone

The Princess is dramatically different in size and styling from any extension you've seen before.

*It's little*—to take up less room on table or desk.

*It's lovely*—for the modern taste that asks for beauty with simplicity.

*It lights*—dial lights up when you lift the receiver and becomes a soft night-light at the flick of a switch.

### VOLUME CONTROL TELEPHONE makes listening easier

A small button on the telephone lets the user adjust the volume to suit himself. A joy for those with impaired hearing. Also especially useful in noisy locations like game rooms.

### Personalized Directory Listings...

Personalized directory listings are perfect for teen-agers or adults living with you and using your telephone but who haven't a telephone listed in their own name.

## COMPLETE TELEPHONE SERVICE

**Makes YOUR office  
more productive**

Today's businessman knows that modern telephone service keeps business costs low. By saving time and steps around the office and for order taking and customer contacts, complete telephone service is playing an increasingly important role in daily business life. If you'd like to learn how modern telephone service can help streamline your office procedure, just call us. With no obligation, a trained service engineer will analyze your needs with an eye both to economy and efficiency.

### Push-button telephones in COLOR

Modern push-button telephones—in eight handsome colors—give you the convenience of six lines for telephoning. Push-button telephones may be equipped with intercom, bell cut-off and privacy cut-off. When you analyze your push-button needs, check and see if you have enough lines to handle incoming and outgoing calls. Don't give your customers the "busy signal" and don't make yourself wait for an outside line.

### Speakerphone

A touch of a button permits the user to talk on the telephone without lifting the receiver. A small desk top unit houses a loudspeaker and microphone... listen and talk, and at the same time keep both hands free for writing or consulting files.

The microphone is sensitive enough to pick up conversations from several feet away, permitting use of the Speakerphone for telephone "conferences." If privacy is desired, Speakerphone may be used as a regular telephone.

### Automatic Answering Equipment

This full-time telephone "secretary" answers calls automatically when you're away from the telephone. Automatic Message and Answering Equipment gives your recorded message to those calling—invites caller to leave name, telephone number or other recorded message in return.

Even when you're out, you're always in with Automatic Answering Equipment on the job! It's the perfect solution to the problem of missed calls.

*For more information or to order contact your telephone business office*

## Call Director

Available in 18-button and 30-button models the Call Director can be tailored to the exact needs of your business. Easily operated by anyone, the attractively designed instrument takes little desk space.

## Conference Service

*Long Distance—the  
Quick, Easy Way to  
Keep in Touch*

Want to talk to more than one other person on mutual business affairs at the same time? This use of your telephone service will save time, settle questions promptly, and is economical. Just pick up your telephone and call the long distance operator. She will arrange the details of your conference call.

## Telephone Credit Card

Here is the key to modern telephone usage. Works like any credit card. When away from home charge your long distance calls to your home or business telephone—no extra charge.

## Personalized Directory Listings

Make it easy for customers to call your executives and key personnel after office hours by listing their names in addition to your regular business listing.

**SMITH CO** 123 West ---- EX 4-1234  
Brown Wm 3131 Maple - EX 4-1432  
Smith John 8089 Elm - EX 4-4321

## Yellow Pages

Your advertising in the Yellow Pages will help old customers to return and new ones to find you. Yellow Page advertising works effectively and consistently in your behalf.

# YOU CAN SAVE TIME AND EFFORT IF—

You will refer to the advertisements in the Telephone Directory before you shop. Listed for your ready reference are the names of dealers, their street addresses and telephone numbers who offer the products or services you want . . .

12-23

## HOW TO **FIND IT FAST** IN THESE **Yellow Pages**

Whether you are a newcomer or have lived in the city for years you will be surprised to find the many services and commodities you can locate in the Yellow Pages. Thousands of classified headings have been established to help identify the activities of practically every local profession or business that has a telephone.

### READY TO BUY?

Bakers or Bottles—Florists or Furniture—Tailors or Travel Agencies . . . Just turn to the proper classification and you will find many firms represented with listings and advertisements giving you vital information to help in selecting a firm to call.

———*Tell Them You Found Them in the Yellow Pages!*———

### LOOKING FOR BRAND NAMES?

Turn to the classification which best describes the product or service you want. Authorized dealers for products bearing the Trade Mark or Trade Name you have in mind, will be represented there, ready to serve you.

———*Tell Them You Found Them in the Yellow Pages!*———

### FORGET SOMETHING?

You remember the address but you can't quite recall the name. Look under the appropriate heading for the product or service you want, then check the addresses of the dealers listed there. You will quickly recognize the address and the name you had forgotten.

———*Tell Them You Found Them in the Yellow Pages!*———

### EVEN WHEN YOU KNOW THE NAME

The Yellow Pages help you find it faster! For example, if the dealer you are looking for is named Brown it is much easier to look for him under the classification descriptive of his business, than to look through the long list of Browns in the white pages.

———*Tell Them You Found Them in the Yellow Pages!*———

### IF YOU ARE IN BUSINESS

You will be giving better service to your customers and prospects if you advertise your goods and services under all headings descriptive of them. For details about advertising or additional listings in the Yellow Pages, just call your Telephone Company Business Office.

*"Happy words to a businessman . . .  
 'I found you in the Yellow Pages'."*

*Days seem brighter, your tasks lighter,  
 when you have phones within easy reach  
 where you work or relax.  
 The cost is surprisingly small.*

**Call your Telephone Business Office  
 or ask your Telephone Serviceman.**

*When You Know What You Want  
 But You Don't Know*

**WHERE TO BUY IT**

The business firms whose advertisements you will find  
 in this directory are doing their part to assist you  
 in your everyday shopping problems. Through ade-  
 quate representation they tell you quickly and easily  
 who sells it, whom to call or where to go for the  
 services or products you desire.

Business men and women today are using this modern  
 method of shopping. They find it saves them miles  
 of steps and hours of time.

Your next shopping problem can easily be solved by  
 referring to the advertisements in this Telephone  
 Directory. We urge you to try it.

**FREE** to you, your architect, your builder...

## CONCEALED TELEPHONE WIRING

... our complete "during construction" wiring service  
that provides your new home with  
built-in telephone outlets in every important room.

### what is concealed wiring?

Telephone wires installed *inside the walls* in those rooms where you might eventually want extension phones—like the kitchen, master bedroom, family room, basement or living room.

### when is it done?

During construction—before the walls are closed in—a telephone serviceman visits your new home to run the wires.

### how much does it cost?

Concealed wiring is absolutely **FREE**, furnished by us as a service to you, to your builder, or to your architect.

### how can you get concealed wiring?

Just call us. Or, if you'd like, your builder, contractor or architect can arrange with us to provide concealed wiring during construction.

## Here's how concealed wiring pays off in convenience

### HOME INTERPHONE

the new room-to-room communicating system that combines the convenience of extension phones with seven new intercommunicating features including door answering and hands-free talking.

### EXTENSION TELEPHONES IN COLOR

the beautiful and useful way to make your life a little easier. And when the wiring's concealed, there are no unsightly cords to "bury" behind furniture, under carpets or along baseboards.

To get complete information on the wide variety of telephone products and services—made even handier with concealed wiring—call our business office.

Pick A Room—Then Pick The Phone That Suits It Best.

Now, with a family of extension phones, you can match the style you want to the room you have in mind.

Choose the graceful desk model for arm's length telephoning in your living room, den or family room. Available in a wide range of nine rich colors that add sparkle to your own decorative ideas.

This is the dainty Princess phone that sits so prettily beside your bed. When you pick up the receiver, the dial lights up for easy use in the dark. Five pastel colors, including the newest one, turquoise.

The compact wall phone is ideal for kitchens and utility areas where you need the convenience of an extension phone without sacrificing scarce counter space. Eight colors—from deep red to sunny yellow.

The Bell Chime—A New Musical Sound For Your Telephone. Inside this attractive case are two bell tones: a low, melodious ring and a louder ring to call you from another room, and the cheerful ring you've known. Select the one you want by moving a lever. Available in neutral colors, soft gold and silver. Hear this newest idea in sound when you visit our business office.

It's easy to order these and other telephone services—call the Telephone Business Office or ask your Telephone Serviceman.
